US: The Bittersweet

Di pekan lalu, AS dihadapkan pada berbagai ketidakpastian mulai dari memanasnya tensi geopolitik hingga ketidakpastian terkait arah kebijakan suku bunga The Fed. Alhasil, DXY menguat akibat akumulasi investor ke *safe haven asset* namun *yield* UST 10YR justru naik. Di sisi lain, pasar saham AS bergerak *sideways*.

Pandora's Box

- Di pekan ini, *demand* terhadap *safe haven assets* bertahan tinggi di mana DXY menguat ke 99,39 dan emas mencapai *all time high* di USD 4.596/t.oz.
- Flight to quality* disebabkan oleh memanasnya tensi geopolitik akibat: 1) AS yang sempat berencana menyerang Iran & mengancam tarif sebesar 25,00% untuk negara yang melakukan bisnis dengan Iran; 2) AS berencana mengambil alih Greenland & mengenakan tarif hingga 25,00% ke 8 negara NATO; 3) AS mengancam tarif sebesar 25,00% untuk *chips* NVIDIA H200 dan AMD MI325X.
- Meskipun demikian, *yield* UST 10YR justru naik hingga menembus level 4,20% (**Exhibit 1**), akibat: 1) Meningkatnya risiko independensi The Fed setelah Powell dipanggil *Department of Justice*; 2) Rilis data ekonomi AS yang cukup solid di mana PPI naik sebesar 3,00% YoY dan *retail sales* tumbuh 0,60% MoM. Hal tersebut berpotensi membatasi pemangkasan suku bunga The Fed ke depannya.

Swinging Pendulum

- Pasar saham AS bergerak *sideways* dengan DJIA -0,29%, S&P 500 -0,38%, dan Nasdaq -0,66% dalam sepekan per 16 Januari 2026 (**Exhibit 2**).
- Sektor teknologi sempat terkoreksi pasca pihak bea cukai Tiongkok melarang masuk *chips* NVIDIA H200, namun kembali *rebound* akibat kesepakatan dagang AS – Taiwan. Perusahaan teknologi Taiwan sepakat untuk investasi sekitar USD 250,00 miliar di AS.
- Sektor perbankan terkoreksi pasca rencana Trump menetapkan *credit rate cap* di 10,00% meskipun *earnings* JP Morgan, Citi, dan Bank of America solid.
- Di sisi lain, sektor *materials & industrials* justru *rally* di tengah memanasnya tensi geopolitik dan rotasi investor ke sektor dengan valuasi yang lebih murah.

Weekly Market Overview

19 January 2026

Asia: Living The Moment

Kontras dengan AS, pasar saham Asia justru kembali *rally* akibat sentimen positif dari emiten teknologi domestik. Indeks teknologi Asia bahkan berhasil *outperform* indeks teknologi AS secara signifikan. Di Indonesia, IHSG juga *rally* hingga menembus level 9.000 seiring *inflow* asing & *demand* domestik yang solid.

The Rising Star

- Pasar saham Asia *rally* dalam sepekan per 16 Januari 2026 seiring sentimen positif dari emiten teknologi. Indeks emiten teknologi Asia bahkan berhasil *outperform* emiten teknologi AS (**Exhibit 3**).
- Di Taiwan, TSMC melaporkan *net profit* Q4 2025 yang tumbuh 35,00% YoY seiring *demand* yang solid. Di Korea Selatan (*all time high*), SK Hynix berencana melakukan ekspansi lewat pembangunan pabrik di Cheongju (Korea Selatan) hingga USD 12,90 miliar.
- Di Tiongkok, katalis positif untuk sektor teknologi datang dari: 1) Rencana Alibaba untuk menghubungkan AI ke *e-commerce*; dan 2) Kesepakatan Tiongkok – Kanada berupa penurunan tarif EV Tiongkok ke 6,00% (*prev.* 100,00%). Selain itu, pemerintah juga berupaya untuk menekan perang harga dari *food delivery platforms* sehingga dapat menguntungkan Alibaba & Meituan.

New Milestone Unlocked

- Pasar saham Indonesia *rally* hingga menembus level 9.000 pada 14 Januari 2026 (*all time high* ke 7 di 2026). Investor asing mencatatkan *inflow* sebesar IDR 4,21 triliun dalam sepekan per 15 Januari 2026.
- Dalam sepekan, *rally* dikontribusikan oleh emiten *big caps* di mana indeks LQ45 berhasil naik 2,47%. Kenaikan IHSG & LQ45 membuat valuasi turut mengalami kenaikan di mana valuasi IHSG (P/E) sudah berada di atas rata – rata 5 tahun namun valuasi LQ45 masih berada di bawah rata – rata 5 tahun (**Exhibit 4**).
- Emiten perbankan (IDX financials) yang cenderung *lagging* juga diperdagangkan di level yang atraktif di mana P/BV ratio berada di level 1,52x (*avg.* 5YR di 1,78x) per 15 Januari 2026.
